

**So glad that you're still around**

Is it real?

Or just a dream?

Is this really like seems to be?

Moving people

And Dying lights

Wonder what you're doing tonite

If it's true that happiness is just a dream

I'm reaching out for it and tryin in my sleep

I guess that's all that's left for me in any way

Finding sleep and happiness in what you say

Don't know about you

**Don't know what you're looking after**

**Good friends are hard to find**

**Dont need another disaster**

**So glad that you're still around**

The coolest move

That I can do

Is making things so much easier for you

The common sense

The common ground

Is for some reason nowhere to be found

If it's true that happiness is just a dream

I'm reaching out for it and tryin in my sleep

I guess that's all that's left for me in any way

Finding sleep and happiness in what you say

Don't know about you

**Don't know what you're looking after**

**Good friends are hard to find**

**Dont need another disaster**

**So glad that you're still around**
