

The screenshot displays the Cubase 5 interface with several windows open:

- VST-Verbindungen - Ausgänge (VST Connections - Outputs):** Shows the routing of audio signals. The 'Stereo Out' is connected to the 'Focusrite USB 2.0 Audio Driver'.
- MIDI Piano Roll:** Shows a MIDI sequence for 'LuSH-101'. The piano roll contains several MIDI notes, including a cluster of notes in the lower register (around 40-50 kHz) and a few notes in the upper register (around 10-20 kHz).
- VST Instrument Settings (LuSH-101):** The 'Layer Settings' tab is active, showing a 'French Flute' sound. The 'Layer Master' section includes controls for 'Fine Tune', 'Release', and 'Volume'.
- Mixer:** The 'Mixer' window shows the 'LuSH-101' channel strip with various parameters like 'Attack', 'Decay', and 'Sustain'.
- Transport:** The transport controls are visible at the bottom, showing the current time signature of 4/4 and a tempo of 125.000.
