

# Golden Age

*(© 2014, John Williams)*

It's a world of nightmare  
a Fukushima landscape  
radio-active spyware  
children being mind-raped

Those high fructose junkies  
all carbon dioxide buzzed  
eating plant life growing feces  
but, free of pesky bugs

So what's next, what's next  
Please hurry up and turn the page ...  
I wanna get to the part  
where we start our golden age

A virtual reality  
this, "Kingdom of Heaven"  
where God goes on a killing spree  
for all His faithful brethren

Apocalyptic daydreams  
for the conjuring of power  
by madmen wearing sunscreen  
from the light they then devour

So what's next, what's next  
Please hurry up and turn the page ...  
I wanna get to the part  
where we start our golden age

Read the part where mankind finally walks upon his Earth  
and understands with one mind this creation and its worth  
where no one holds the key to another's cage  
I wanna read the part where we start our golden age
